

VST Engineering, spol. s r.o.

Semtín 79, 533 53 Pardubice, VAT: CZ25264087

Issues as the manufacturer

NOTICE OF OBSOLESCENCE

Due to the expiration of EN 15089 regulation in 2015, also the passive flap valves ANTIDET DUMPER type ExDR-1 were discontinued by VST Engineering.

Stating from 31 December 2024, these valves will no longer be supported by VST by any means, including field service checks, repairs, overhauls and any spares.

Since 2016, a new regulation EN 16447 has been valid, and accordingly, a new type of ANTIDET DUMPER passive explosion protection valves have been available – please check with your sales agent the available diameters and application ranges.
